Benefits of the Bolted Beam

1. Demonstrates Quality

Show your potential homebuyers your commitment to using enhanced quality products. Bottom plate also allows for faster basement finishing.

2. Reduce Floor Squeaks

With the bolts in a staggered 1 foot 6 inch pattern, there is no deflection of wood which causes those pesky squeaks.

3. Faster, Safer, and Easier

- No more wood plating in the field
- No A-frame bracing
- Wood to wood connections
- Lateral stability allowing for a full load
- Upgrade to bolted column connections for worry free install

PH: (585)436-9807

Reliable

The most secure, safe, fast, and silent option on the market.

Don't take chances with shot on or bent over nails.

Packed-Out Web

Wood plating the web can allow you to hang your Joist hangers with ease.
